Together, we embark on a journey of academic achievement and personal growth, ensuring that all students are supported and empowered to reach their full potential.

Art Vision Statement

Art and Design affects every aspect of our lives and is a fundamental means of personal expression. As Artists our children **explore** a variety of ways to express thoughts, feelings and emotions, through visual, tactile and sensory experiences. We foster creative thinking, artistic expression, effective communication and cultural awareness. There is great pleasure to be derived from Art and Design and, through developing a deeper understanding; our children are able to gain access to cultural richness **equity** and diversity; learning to value and appreciate the creativity of others. An emphasis is placed on the use of first-hand experience, experimentation and development of ideas and skills based on a wide range of stimuli.
