

Aligned with our Trust's vision, **Excellence, Exploration, and Encouragement** powered by **Equity**, we are committed to overcoming social inequality, passionately striving to improve the life chances of every child in our care. Together, we embark on a journey of academic achievement and personal growth, ensuring that all students are supported and empowered to reach their full potential.

## Computing Vision Statement

Technology is an integral part of our modern world. Our aim is to enable all our pupils and staff to be confident, competent, and independent users of technology.

Through teaching computing, we equip our children to participate in a rapidly changing world, where work and leisure activities are increasingly transformed by technology. It is our intention to enable children to find, **explore**, analyse, exchange and present information. The children are provided with many opportunities to use technology and they are able to **explore** a range of media styles, such as blogs, coding, word processing and digital art.

It is also our vision to ensure that all children are able to use technology whilst staying safe online. We send out Wake Up Wednesday- E-Safety advice to parents each week and publish these on the school website. Learning is further enhanced by workshops provided by external agencies.

Pupils are supported with technology to record their ideas ensuring **equity** for all learners.
