NASEN Mission statement

Section 1

Introduction

- This policy outlines the nature and management of SEND at Tattershall Holy Trinity Church of England Primary School.
- It reflects the consensus of the whole teaching staff and the Academy Committee
- The Special Needs and Disabilities Coordinator (SENCo) is Mrs D Kaynes, who works closely with Ms V Wise, Pastoral manager. They can be contacted directly in school during term time.
- Mrs Kaynes has the NASENCo Award and is part of the school’s SLT.

The School Context – What sort of school are we?

Tattershall Holy Trinity Primary School (HT) serves a wide rural area. The school is well maintained with a safe environment. Most children enter the school having experienced some form of pre-school provision. Pupils enter school with a wide range of attainment; most pupils come from a rural background with little variation in ethnicity. When compared with the national average of children with SEND, in state funded primary schools, the percentage of pupils with SEND at HT (23%) is currently above the national average for Primary Schools in England (17.3 % Jan 23) The percentage of pupils speaking English as an additional language is low. Overall, pupils come to school well motivated; they work hard and make the most of their educational experiences.

The local environment is used to broaden and enrich the quality of pupils’ educational experiences, with visits and enrichment activities to extend pupils’ understanding of the wider world and enhance cultural capital.

Beliefs

At Tattershall Holy Trinity we strive to provide a high quality education for pupils with SEND and to support **all** children to enabling them to achieve their full potential, feel valued and successful and become confident individuals living fulfilling lives.

Quality first teaching is vital; every teacher is a teacher of every child in their class, including those with SEND. Each pupil is seen as having individual needs, and the school strives to ensure that everyone feels equally valued within the school community and has equal opportunities.

We acknowledge and value the role that parents/cares have in their child’s learning and aim to work in partnership with them, taking into account the voice of the child.

As a school we always seek to develop an inclusive curriculum by:

- Having high expectations and ambitions for all children
- Setting suitable learning challenges for all children
- Responding to children’s diverse learning needs
- Working with the child to ensure full access to all learning and assessment tasks for individuals and groups of children.
- Identifying and removing barriers to learning
- Working with LAAT, LEA and outside agencies to achieve the best outcome for the child.

Compliance

This policy complies with the statutory requirements laid out in the SEND Code of Practice 0-25 2015 and has due regard to all relevant legislation including, but not limited to, the following:

Section 2

Aims

- a) The aim of the SEND Policy is to improve the learning and raise the achievement and outcomes for children with Special Educational Needs or Disabilities.
- b) We strive to allow all children to achieve their full potential, feel successful and confident with their learning, safe in the environment and to move off the SEND register at the earliest opportunity if their needs are met.

Objectives

Every school is required to identify and address the SEND of the pupils that they support. Through the implementation of this policy, the school will:

- Use their best endeavours to make sure that pupils with SEND get the support they need to access the school's broad and balanced curriculum.
- Ensure that pupils with SEND engage in the activities of the school alongside pupils who do not have SEND.

- Ensure there is high-quality provision to meet the needs of pupils with SEND, with specific focus on inclusive practice and removing barriers to learning.
- Fulfil its statutory duties towards pupils with SEND in light of the SEND code of practice.
- Promote disability equality and equality of opportunity, fulfilling its duties under the Equality Act 2010 towards individual disabled pupils.
- Make reasonable adjustments, including the provision of auxiliary aids and services, to ensure that disabled pupils are not at a substantial disadvantage compared with their peers.
- Designate a teacher to be responsible for coordinating SEND provision, i.e. the SENDCO.
- Inform parents when they are making special educational provision for their child.
- Review, prepare and publish important information about the school and its implementation of relevant policies, including:
 - Accessibility Policy
 - Information about the admission arrangements for pupils with SEND and the steps taken to prevent them being treated less favourably than others.
 - A SEN information report about the implementation of the school’s policy for pupils with SEND.

Section 3: Identifying Special Educational Needs

- School-aged children are defined as having SEN if they have a significantly greater difficulty in learning than the majority of children of their age, which calls for additional to or different from, the educational provision that is provided for all children of the same year group.
This is beyond the reasonable adjustments and learning arrangements that are normally provided as part of high quality personalised teaching.
- If the above criteria has been met and despite having extra interventions provided by the class teacher, the child is still not making expected progress, then in consultation with parents a concern form will be completed (Appendix 1) and a decision to place them on the SEND register may be taken.
- The purpose of identification is to determine what action we as a school need to take to meet the child’s needs and is outlined in the school’s SEND information report.
- As a school we acknowledge that many pupils during their time at primary school may experience difficulties, long or short term and we will endeavour to support these children.
- Parents/carer’s views and the child’s view form a key part in identification.

The school plans, manages and reviews SEND provision across the following four broad areas of need:

- Communication and interaction,
- Cognition and Learning,
- Social, emotional and mental health difficulties,
- Sensory and/or physical

Section 4: SEN Support

The school is aware of its statutory duty to provide a broad and balanced curriculum and recognise that high quality teaching, which is adapted for individual pupils and the highest ambitions for all children is the first step in responding to pupils who have or may have SEND.

Teachers at the school will:

- Have high expectations for every pupil.
- Plan stretching work for pupils whose attainment is significantly above the expected standard.
- Use appropriate assessment to ensure the curriculum is ambitious for all.
- Plan lessons to ensure that there are no barriers to every pupil achieving.
- Be responsible and accountable for the progress and development of the pupils in their class, including where pupils access support from teaching assistants or specialist staff.
- Provide frequent opportunities for Pre-Teaching

Decisions on whether to make special educational provision for pupils will be based upon:

- Discussions between the teacher and SENCO.
- Analysis of the pupil's progress – using internal formative and summative assessments, alongside national data and expectations of progress.
- Discussion with the pupil and their parent.

Once a pupil has been identified with SEND, the school will continue to employ a graduated approach to meeting the pupil's needs. This will be through the adoption of a four-part cycle – **assess, plan, do, review** – whereby earlier decisions and actions are revisited, refined and revised with a growing understanding of the pupil's needs and of what supports the pupil in making good progress and securing good outcomes. The process is as follows:

- **Assess:** establishing a clear assessment of the pupil's needs
- **Plan:** agreeing the adjustments, interventions and support to be put in place, as well as the expected impact on progress, development or behaviour, along with a clear date for review
- **Do:** implementing the agreed interventions and support
- **Review:** analysing the effectiveness of the interventions and their impact on the pupil's progress in line with the agreed review date

Where higher levels of need are identified, the school will access specialised assessments and advice from external agencies and professionals.

Further information on this process and the support that school offers, can be found in our SEND Information Report (Appendix 2).

If Parents express concerns about their child within the home, then following discussions with Parents and with their consent, an Early Help Assessment (EHA) may be initiated to provide support for the child out of school as well as within school. The Pastoral Support Manager will lead and over see this.

If school identifies that we are unable to fully meet the needs of a child, through our own provision arrangements and only after closely following the advice of specialist agencies. We may then, in consultation with parents, decide to apply for an Education, Health and Care Plan (EHC Plan).

If a child is recommended for further assessment, as a result of a SEN Support review meeting and meets the LEA criteria for EHC Plan referral, the SENCO completes the relevant paperwork and submits it to SEND services at Lincolnshire County Council. If a decision is made to instigate statutory assessment, the above support in school continues, and the LEA follow the EHC plan guidelines.

Section 5: Criteria for exiting the SEN Register

If following the additional support, the child makes 'good' or 'accelerated' progress and is on track to reach age related expectations and Parents, School, Specialist Agencies and the Child (if appropriate) agree, the child may be removed from the SEN Register but will be closely monitored within the class.

Accessing Assessments and SATS

- If necessary, special arrangements are made for pupils with SEND taking statutory tests. These could include a reader, extra time and help with recording, in line with government assessment policy.
- Our Executive Head Teacher, is responsible for applying for specific access arrangements.

Transition

- Transitions are carefully planned whether they are from class-class, key stage to key stage or school to school.
- When Children move classes the SENCO and current class teacher ensure that the receiving class teacher has the relevant information and the child is given opportunities to visit their new class and a social script will be written if necessary.
- Where pupils have EHC plans, these will be reviewed and amended in sufficient time prior to a pupil moving between key phases of education, to allow for planning for and, where necessary, commissioning of support and provision at the new setting.
- When Year 6 children move on to Secondary school, the receiving school SENCO is invited to a review meeting in the summer term to ensure they are aware of any needs, and to meet the child and parents. Arrangements can be made for extra adult supported visits to the new school, if required.
- If the need arises, key children are invited to join a Transition Group in the summer term.

- When any of our children leave school, all SEND records are sent on to the new school with the child's official record card. The SENCO may contact the receiving school's SENCO to implement a transition programme and ensure continuity of support if required.

Section 7: Managing Medical Conditions of children.

- The school recognises that pupils at the school with medical conditions should be properly supported so that they have full access to education, including school trips and PE activities. Some children with medical conditions may be disabled and where this is the case, the school will comply with its duties under the Equality Act 2010.
- Some pupils may also have Special Educational Needs (SEN) and may have an EHC Plan which brings together health and social needs as well as their special educational provision and the SEND Code of Practice (2015) is followed.
