

Aligned with our Trust's vision, **Excellence, Exploration, and Encouragement powered by Equity**, we are committed to overcoming social inequality, passionately striving to improve the life chances of every child in our care. Together, we embark on a journey of academic achievement and personal growth, ensuring that all students are supported and empowered to reach their full potential.

History Vision Statement

As Historians, our children will learn the discipline of how to investigate, **explore** and understand the past, and how this can shape the future. They will learn how to cross examine information from different sources allowing them to structure arguments and debates clearly. We aim to equip all our pupils with the ability to ask perceptive questions, think critically, collate evidence and develop their own perspective and judgement to better understand the intriguing world we live in today. We support our children to learn the transferable skills that the study of history provides and how these will support them in the future.

By the time they leave our school we aim to ensure that all pupils (**equity**) will be able to:

- Have an **excellent** understanding of the chronology for the local area, Britain and the wider world.
- Understand and accurately using subject specific vocabulary.
- Develop their historical enquiry using evidence and communicating their ideas effectively.
- Interpret and evaluate different sources and understand how historians use these skills to tell us about the past.
- Formulate their own opinions based on a wide variety of sources.
